Emergency Notification System Contact Sheet

Destiny USA uses the One Call Now emergency notification service to notify tenants of emergency closings, evacuations, criminal activities, lost children, etc. This system is similar to what many local municipalities are using and will enable us to reach you even when the mall is closed.

This service may also be used for notification of Destiny USA marketing events and meetings. These calls will only be sent to the store's phone number listed below.

One Call Now is capable of notifying up to six phone numbers, by either voice or voice and text, and five email addresses per tenant. If the line is busy or not answered, the system will keep trying until a live person or voicemail is reached.

Please provide the information below and place a checkmark next to the preferred method(s) of contact, up to (6) phone numbers and (5) email addresses total:

Contact 1 - Store Information:

Store: _____

Phone: _____ Ext: _____

(Please note: This should be a number without an automated answering system, or list an extension number to get a live person)

Contact 2 - Store Manager:

Name: _____
